

HUSKY is a global, Canadian-owned supplier of molds, machines and robots for the plastic industry. Sales were US\$ 935 million last fiscal year.

In order to maintain our growth rate and increase our market strength, we are looking for a motivated self-starter to fill the following position for our Service department in Luxembourg:

SERVICE TECHNICIAN (m/f)
(Based in Luxembourg)

After an initial training period, you will be responsible for the installation, start-up troubleshooting and preventive maintenance of our systems at our customers' facilities. By traveling regularly to our customers, located within Europe, you will also help them optimize their operations with on-site training and follow-up visits.

You should have a technician or engineering degree with general experience in control systems and a trouble shooting attitude. This position is an entry position with opportunities to growth throughout the company.

Your initiative, your team spirit and project management abilities enable you to deal with multiple priorities in a timely and proactive manner.

As we function in an international working environment, it is essential that you have English language skills, whereas additional language skills would be considered an asset.

This position offers great challenges and has an impact on the final business result and growth. It is a unique opportunity to combine technology and inter-human contacts.

If you are interested, you are pleased to apply in English. **(Contact : mschramm@husky.ca)**
